

# CO48PM Evaporative Air Cooler

## INDOOR - OUTDOOR

The CO48PM is an ideal choice to keep indoor rooms and outdoor environments comfortably cool and breezy. This weather resistant evaporative air cooler is made to resist outdoor conditions. Honeywell evaporative coolers do not require power hungry components like compressors. The CO48PM consumes only 150 watts of power. This low power consumption translates into significant savings on energy bills compared to using air conditioners. This unit is ideal for rooms up to 610 sq. ft. in any home or office.

For outdoor environments, its powerful motor with 14 inch, wide fan blades help to deliver strong air flow. A continuous water supply connection, 40 liter (10.6 gallons) water tank, and built-in overflow protection system allow long periods of unattended operation, making it suitable for more demanding and commercial applications. This unit features honeycomb cooling media on 3 sides for faster, more optimal cooling performance.

### FEATURES

-  Waterproof for outdoor use
-  Power consumption 150 Watts
-  Water tank capacity 10.6 Gallons (48 Liters)
-  3 Speeds control High / Medium / Low
-  Continuous water supply connection
-  Oscillating louvers
-  Cools up to 610 Sq.ft (57 Sq. m)\*
-  Powerful air flow 1062 CFM (1800 m<sup>3</sup>/hr)\*
-  14 in (36 cm) fan blade
-  Easy to operate and reliable mechanical control panel
-  3 side Honeycomb cooling media for optimum cooling
